Checklist coverage & supporting records

Parameter	Status	Evidence or Requirement
Buyer / supplier totals and shares	Not supplied	Need GSTR-1 B2B, GSTR-2B and sales/purchase party ledgers.
Exports / export share	Partial	Zero-rated declarations shown; export vs SEZ split absent.
Filing date / late fee	Available	ARN dates and section 5.1 late fee; prior-period fees not assigned as current delay days.
HSN product summary	Not supplied	Need GSTR-1 HSN tables or item ledger.

SOURCE EXCEPTION
Haryana February 2026 displays FILED but has no ARN, ARN date or taxpayer name. Filing date remains unavailable; the document is not treated as independently verified filing evidence.
State breakdown is by GST registration, not buyer location. Gross declarations may include inter-branch supplies.

Buyer/supplier concentration, HSN, party reconciliation and export-only ratios need GSTR-1/GSTR-2B or invoice ledgers. ITC cannot establish purchase turnover.

Monthly GST vs banking | INR crore

COMPARISON LIMITS
This is an availability bridge, not full entity reconciliation. Earlier months have fewer bank accounts and four GST registrations. Telangana records start Oct 2025.

GST can include branch transfers. Bank cash can include prior-period collections, advances, finance and unidentified internal transfers.

Monthly bridge with coverage counts | INR

2025-08	465,179,751.28	809,049,016.48	648,597,534.88	4	6	Partial GST registrations

Checklist coverage & supporting records

Parameter	Status	Evidence or Requirement
Aggregate common months	Availability comparison	April 2025-July 2026. Coverage differs; no claim of full entity-level reconciliation.
Inter-registration GST elimination	Not possible from 3B	GST supplies can contain branch transfers; bank receipts are not a like-for-like sales measure.

REQUIRED FOR PARTY-WISE RECONCILIATION
Customer ledger with GSTIN, invoice/date, gross amount, opening receivables and receipt allocations; GSTR-1 B2B/export tables; verified bank-name aliases. For suppliers, add GSTR-2B and purchase ledger. Inter-registration GST elimination and June 2026 Union 0102 statement coverage also need verification. August bank statements are partial and August GST is not supplied.

Missing party GST values stay unavailable. No zero-valued party GST amounts, fuzzy name matches or artificial party variances are generated.

SOURCE TOTAL EXCEPTION
Entered EMI rows total INR51.32 lakh/month. Printed total INR3.23 lakh includes numeric cells only and misses text-formatted amounts.
LC / derivative limits are not annual funded debt. Missing EMI stays blank.

EVIDENCE-BASED SWOT
Strength: revenue and PAT growth. Weakness: rising debt, receivables and inventory; negative FY2025/26 operating cash flow. Opportunity: validate collections and working capital. Threat: financing dependence and differences in source account coverage. No bureau report was supplied; no credit score or sanction recommendation is inferred.

BASIS NOTE: FY2024 CFO includes short-term borrowing movements. FY2025 is restated Ind AS; the older net-worth certificate uses a different basis. Projected CMA excluded.

Checklist coverage & supporting records

Parameter	Status	Evidence or Requirement
Aggregate common months	Availability comparison	April 2025-July 2026. Coverage differs; no claim of full entity-level reconciliation.
Inter-registration GST elimination	Not possible from 3B	GST supplies can contain branch transfers; bank receipts are not a like-for-like sales measure.
Party-wise GST vs banking	Pending party GST	3B returns lack customer GSTIN and invoices; no artificial party variances calculated.
