Our objectives are to obtain reasonable assurance about whether the Annual standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Annual standalone financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Annual standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Annual standalone financial results in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management and Board of Directors.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Annual standalone financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Annual standalone financial results, including the disclosures, and whether the Annual standalone financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

The Annual standalone financial results include the results for the Quarter ended March 31, 2026 being the balancing figures between the audited figures in respect of full financial year and the published unaudited year-to-date figures upto the third quarter of the current financial year which were subjected to limited review.

5 Leases

(See accounting policy in Note 3(l))

On transition to Ind AS, in respect of leases previously classified as operating leases, lease liability is measured at the present value of remaining lease payments discounted using the incremental borrowing rate at the date of initial application and the right-of-use assets have been measured at the amount equal to lease liability, adjusted for any prepaid or accrued lease payments recognised in the balance sheet immediately before the date of initial application. The Company has availed the transitional exemption of not applying Ind AS 116 for the leases for which the remaining lease term is less than 12 months or are of low value items as on the date of initial application.

The Company has entered into lease agreements for various premises with contract terms of 7 to 12 months. These leases are short-term and/or leases of low-value items. The Company has elected not to recognise right-of-use assets and lease liabilities for these leases

Leases - Company as lessee

The Company leases office premises across locations. These leases of office premises were entered into in earlier years across locations and some of the facilities are undertaken during the year. Information about leases for which the Company is a lessee is presented below

A Right of use assets Right of use assets Right of use assets
